28 responses

### Suggestions:

- The curriculum at the graduate level should focus more towards practical learning and skill development. Whereas, the curriculum at the post-graduate level should strictly be research oriented and facilities should be provided for the same.
- Several members for meeting of Board of studies should be incorporated from different universities.
- Curriculum should be review time to time as per students needs.
- Curriculum must contain computer programming and software's.
- Curriculum should be designed according to the needs of current situation.
