Govt P G College Berinag Pithoragarh

Faculty Feedback Analysis

Prepared By

Dr. B. S. Bisht

Assistant Professor

Department of Chemistry
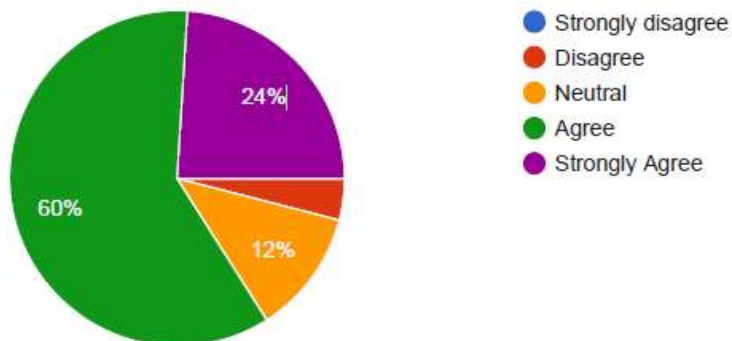

Submitted to

IQAC

Govt P G College Berinag

Pithoragarh, Uttarakhand

Feedback regarding with the different aspects of Govt P G College Berinag Pithoragarh was obtained by IQAC Govt P G College Berinag Pithoragarh given by the faculty members. A total of 25 responses were obtained with respect to 9 questions. The question wise analysis of the feedback obtained is as follow:

## 1. College Provides all Class room Physical facilities.

25 responses

60% of total 25 responses are agree with the physical facilities of the class room provided by college while 24% are strongly agree,12% are neutral and only 4% are disagree. None of the faculty member is strongly disagree with physical facilities of the class room provided by college.

## 2. College Provides ICT facilities for class room teaching.

25 responses

44% of total 25 responses are agree with the ICT facilities of the class room teaching provided by college while 8% are strongly agree, 24% are neutral as well as disagree. None of the faculty member is strongly disagree ICT facilities of the class room teaching provided by college.

## 3. College provides opportunities for continuous development of Staff .

25 responses

- Strongly disagree
- Disagree
- Neutral
- Agree
- Strongly agree

52% of total 25 responses are agree with the opportunities for the continuous development of staff provided by college while 24% are strongly agree, 8% are neutral as well as disagree and strongly disagree.

## 4.Equal opportunities for all staff is provided

25 responses

- Strongly disagree
- Disagree
- Neutral
- Agree
- Strongly agree

56% of total 25 responses are agree with the equal opportunities for all staff provided by college while 20% are strongly agree, 12% faculty members are disagree 8% are neutral and 4% are strongly disagree.

5. Laboratory requirements including equipments, chemicals and specimens are regularly provided by the college.
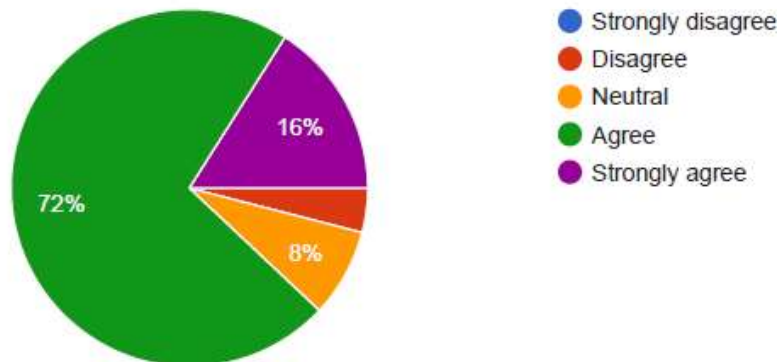

25 responses

- Strongly disagree
- Disagree
- Neutral
- Agree
- Strongly agree

44% of total 25 responses are agree with the laboratory requirements provided by college while 12% are strongly agree, 24% faculty members are disagree, 20% are neutral and none of the faculty members are strongly disagree.

## 6. Capabilities/ Potential of the staff are fully utilized.

25 responses

- Strongly disagree
- Disagree
- Neutral
- Agree
- Strongly agree

72% of total 25 responses are agree with the utilization of the potential of staff while 16% are strongly agree, 4% faculty members are disagree, 8% are neutral and none of the faculty members are strongly disagree.

## 7. Recognition/ Incentive/ Appreciation of the individual work is given .

25 responses

68% of total 25 responses are agree with the recognition/ Incentive/ Appreciation of the individual work is given while 12% are strongly agree, 4% faculty members are disagree, 16% are neutral and none of the faculty members are strongly disagree.

25 responses

44% of total 25 responses are agree with the computer facilities while 8% are strongly agree, 24% are neutral and disagree whereas none of the faculty members are strongly disagree.

Suggestions regarding the feedback obtained

Higher education institutes are struggling to create facilities in a technology-friendly environment across the college in multiple locations. There are a number of college facilities that need to support research, teaching, learning, and other operations. The mission of the college community is to provide various facilities and create an exceptional atmosphere for students, faculty, and staff. Communication and collaboration between students and staff aren't easy in higher education and the best practices for facilities management are not adopted in educational institutions. Once you automate the entire campus facilities you can simplify and streamline the entire range of administrative processes.

Using college management solutions, administrators can focus on improving services to students and staff, and solve all the problems faced by the colleges. The following strategies can support the university campus facilities in a great many ways:

1. Library

Library is one of the important facilities frequently used by students and faculty to support the learning and teaching needs. Using the library automation software harnesses the digital library resources such as eBooks, audio, video, and podcasts to improve student's learning experience. Digital Content Management System for libraries allows colleges to manage all office and academic documents, transcripts, media etc. in electronic format with digital content storage for easy retrieval from anywhere, anytime across website and mobile devices.

2. Asset & Inventory Control

Deploying, operating, maintaining, upgrading, and disposing assets including equipment, consumables, library resources, and fixed assets is challenging for colleges. Most of the colleges struggle to manage and accurately locate their assets and inventory on their campuses. Asset and Inventory Management System leverages sophisticated identification tools such as RFID and Barcoding technologies to effectively track and maintain assets and inventory.

3. Events

Manage conferences, meetings, seminars, and events related to the university students and alumni with automated scheduling, profiling, registration, routing, payments and reminders.

4. Discussion Forum

Check the latest trends on college through online discussion forums for departments, subject updates etc. Gather user feedback/suggestions and share details of events with others.
