## CRITERION I – CURRICULAR ASPECTS

### 1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

• At the beginning of each academic session, college prepares its proposed academic calendar, which is pasted in the college notice board. The proposed academic calendar is prepared according to the notification and circulars received from the affiliating Kumaun University. • Induction programme is organized current year for newly admitted students to make them aware of the mechanism of curriculum delivery, implementation and examination. In this programme students are encouraged to interact with faculty members and get requisite information. • Every department conducts meetings for allotment of classes and curriculum distribution among the teachers. Students are given details of teaching assignment of each teacher at the beginning of a session by the department. • Based on the allotted teaching assignments teachers prepare their "teaching plans" according to the prescribed number of lectures allotted in the university syllabus for each topic. • Along with the traditional chalk and talk method, teachers regularly use power-point presentation, group discussion during the lectures. Students are also given opportunity of power point presentation as well as provided feedback instantly. • Class tests/surprise test and student seminars are held after completion of a section of the syllabus and periodic review of performance of students is undertaken. • Interactive sessions with students and guardians are held to identify problem areas. Special care is taken to address the problems of slow learners, advanced learners and first generation learners. Social net-working sites are also used by some departments for interaction between faculty and students beyond the class hours . • EDUSAT facility available in the college is also used to enhance understanding and learning. the college gets the subject wise and topic wise schedule of session for each month from state Eduset cell in advance and communicated to each academic department by the college EDUSET committee, who looks after the operational aspect of the session whereas the subject experts helps explain the salient features and takeaways of the lectures.

#### 2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Being a Affiliated college of Kumaun University, we are bound by the procedures prescribed by the University with respect to internal assessment of students. The faculty evaluates the answer scripts and distribute to the students for doubt clarifications or re-correction. The faculty submits the re-corrected scripts to the examination branch and marks are displayed on the notice board. Then the principal conducts a meeting with HODs to discuss the students performance and necessary action plan for further improvement. The overall evaluation process is reformed by making faculties aware about the evaluation and assessment system and its importance. Tutorial classes are conducted for slow learners once they are identified. Apart from the regular unit tests, surprise test quiz are conducted. Fast learners are encouraged by the conduction of group discussions, seminars and guest lectures and improvement in the students is continuously monitored. The topics of the assignments given to students are identified by faculty to evaluate the growth of the students. Students have to perform activities of team work and previous year's question papers are solved. the marks are awarded by the teacher on the basis of overall performance of student. This can be judged on the basis of assignments, presentations, interactions, projects or oral tests etc. Presentations are taken on topics related to the syllabi or even on topics other than the main paper to develop the interest of students. Thus, a continuous internal assessment system works throughout the session to evaluate the students on the basis of their daily performance and growth.

#### 2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The institution is an affiliated college. Examinations are conducted at the end of each semester by the affiliating University. Student Council of the college is an elected body and always joins hands with faculty members and college administration to ensure overall development of the college. Our Student council was appreciated by Kumaun University Intercollegiate sports team members and referees in September 2017 for maintaining a disciplined atmosphere in the college. The student council consists of several members like president, secretary, vice president, treasurer etc. The members of this council play an integral and important role in the student community. They are helpful in maintaining the discipline and strengthening student guidance facility. They enhance communication between students and staff. They cooperate the faculty members in various extracurricular activities like cultural activities, seminars, NSS etc. They also participated actively in various rallies of awareness like voter awareness campaign, swachhata campaign and sports. They work closely with the Principal, Teachers and students. They consult regularly with the students in the college and involve as many students as possible in the activities. They always support the principal and staff in the development of the college. They play an important role in recognizing and supporting the work of teachers. They always promote the interest of the college and the involvement of students in the affairs of the college, in cooperation with college and teachers. They actively contribute to the development of the college policy in a wide range of areas such as uniform requirements behavior code and extracurricular activities. ## CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

### 6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

(1) Committee management- All the decisions are taken by respective committees the members of which are accountable for planning, implementation, monitoring , control and evaluation. The aim of this practice is (i) To decentralize the decision making process through delegation of authority and (ii) To ensure full participation of staff for effective implementation. Under this practice various committees are formed annually in three categories vis a vis administrative, academic, and co curricular at both college level and academic departments levels. The decisions regarding admissions, teaching and learning, internal evaluation and examination, research and publications , UGC, distance education, NSS and students support services like career counseling and guidance, organisation of nationally important celebrations , students seminars and workshops , the maintenance of discipline by proctorial board, conducting students elections, finance and accounting and college development etc. Each and every member of staff and some students representatives are engaged and given specific role. Principal office seldom interferes however it assesses outcomes. The practice has resulted in better decision making, 100 percent participation of staff and time bound execution. (2). Annual internal quality audit -IQAC conducts annual internal quality audit of all academic departments , office, students support services and cells on each of 7 criterion and quality indicators set by NAAC. The basic objective behind this practice is to review the activities of departments, their councils and support services and thereby enhance the performance of faculty members, their capacity development and inculcation of professionalism among them. The practice is also relevant in identifying the healthy practices as well as measuring the achievements against set goals. The practice constitute two stages of which former includes self evaluation by departments by SWOC ANALYSIS and profiles of faculty members whereas the latter is done by two days departmental visit by a peer team constituted by IQAC coordinator , one outside academicians with principal as its chairperson . The visit is followed by preparation of report that includes Criteria wise assessment and recommendation after validation of documentation for further improvement. The practice resulted in capacity development of staff and helping prepare them for next cycle of NAAC AA as well as quality enhancement through the betterment and fine tuning of processes.

## 7.2 – Best Practices

### 7.2.1 – Describe at least two institutional best practices

Best Practice 1 Title : Value added certificate Programmes Objective : • To impart skills, build capacity and enhance employability • To enhance better and diversified learning experience • To create an environment of thinking, creativity , innovation and entrepreneurship • To provide academic flexibility and promote interdisciplinary studies. The context : The college envisions academic excellence. Being an affiliated college it implements the courses offered by the affiliating university that limits its capacity to provide academic flexibility and thereby obviously contain the enhancement and enrichment of learning experience of learners. To overcome this, the college introduced 10 interdisciplinary value added skill oriented certificate programmes of 30 hours duration as add on programmes. These programmes are targeted to enhance the breadth and length of students knowledge besides equipping them with practical skills in order to prepare them to face the emerging challenges of contemporary modern world. Practice: At present the college has 15 departments in science and arts stream together, Out of which each of 10 departments conducted one of the programmes. The programmes structure designed by each department was approved by respective board of studies of each of science and arts stream. The teaching methodology as well as evaluation structure with programme outcome was decided uniformly for all of the following programmes run by each department both by their faculty and invited lectures from available outside experts. Blended learning methodology comprising class room lectures supplemented by various virtual means, was adopted. Internal evaluation of assignments, group discussions, presentations, followed by term end test was done and certificates were awarded to participants. Induction programme at the beginning and closing ceremony presided by Principal in the presence of respective faculties and participants who also provided their feedback, is also organized. • Certificate in operation research - Mathematics Certificate in intellectual property rights- Zoology • Certificate in guidance and counseling- B.Ed. • Certificate in communications skills in English - English • Certificate in basic computing - Botany • Certificate in human rights - Political Science • Certificate in women empowerment -Sociology • Certificate in translation, communication and feature writing -Hindi • Certificate in tourism and travel -Geography • Certificate in GST - Economics Evidence of Success: A total of 185 students being approximately 18 of the total enrollment of the college participated. The feedback of the participants in terms of diversity and relevance of knowledge, flexibility of selection of programmes, the teaching pedagogies and evaluation have been encouraging. Even the faculty members were also benefited by this exercise in terms of learning and conducting the programmes. Problems encountered and resources required: A nominal registration fee of Rs.100 was charged from each participant, which was utilized for contingencies such as printing of certificates and payment of honorarium in special cases. The paraphernalia already exists with the departments was used on sharing basis. However, problem was encountered in respect of inviting outside experts due to local unavailability and scarce resources for compensating them with TA/DA and remuneration.

Best Practice 2 Title: Imparting education for holistic development of students through academic excellence, capacity development, leadership, human values and ethics. Objective: The goals of "Holistic Development with human values and professional ethics" and capacity building through "promotion of creating innovation and entrepreneurship" is imbibed in institutional vision translated in institutional objectives. The focus is on all round development of students by nurturing and getting them realized their full potential in intellectual, physical, emotional, social and ethical aspects enabling them to balance their individual and social goals appropriately and thereby play their role effectively in national development with desirable traits of ideal citizenry.

The basic premise is that creating an institutional culture of integrated development of students would enable them to enhance their employability on the one hand and develop the entrepreneurship skills for start ups and thereby becoming employment provider than employment seeker. The context: Apart from the basic objective academic excellence the system of education cannot be confined to mere classroom instructions. Learners need to be provided diversified learning experience both in hard and soft skills coupled with engaging them in extracurricular activities such as sports, cultural, extension in cutting edge areas of gender, environment and sustainability, moral values and ethics. Among the plethora of HEIs focusing on academics only, this institution is aimed at carving out its distinctive place though concentrating on holistic growth of students during their stay in the college. Majority of students in the college come from under privileged class from a rural agricultural background , nearly ¾ th enrollment dominated by the girl students, with high expectation and ambition from higher education fired with inherent desire to serve the society and the country. The college being the only PG College in this remote area with couple of small UG colleges provides the equitable opportunities for all round development. Practice: Over the years the college has developed an institutional culture of striking a fine balance between curricular and extracurricular activities, between hard and soft skills through its academic calendar and schedule of activities. Recently strategies are formulated to make it more flexible, enriched and diverse keeping in view the integrated capacity building of the learners. This is reflected in various key elements of the process holistic development including academic excellence, flexibility and enrichment, support system, extracurricular activities and value education. Having been endowed with adequate physical infrastructure in sprawling vast campus equipped with smart classrooms in every stream, rich library containing more than 35,000 books and journals , the quality faculty selected on standard norms, multipurpose playground the college contributes in effective curriculum delivery at its own level by innovative and flexible approach, meticulously planned Academic calendar to include special treatment of differently able learners, diversified pedagogy and continuous evaluation enriched with students seminars, workshops, guest lectures, field trips and projects. Students talents and potential is further explored through add on courses and their engagement in extracurricular activities of NSS, sports, cultural events in and outside of the college participation. They are exposed to various college committees including annual election of students Union, nomination to departmental associations for Leadership and Governance while providing a conducive and multiple student support system for careers planning and counseling with special emphasis on human values and ethics in each event. Evidence of Success/ conclusion: Such Distinctive institutional culture and environment has been successful in attracting students from all over the region, students progression to higher institutions and vast treasure of student's alumni's to the credit of the institution.
