

B.Sc. Mathematics Programme Specific Outcome

- PSO 1-** Students will be able to identify functions and their behavior further they shall be able to apply them in various branches of engineering and research.
- PSO 2-** Students will be able to model the problems of real life mathematically
- PSO 3-** Students will be able to analyze and train data to make better conclusions
- PSO4-** Students will be able to make better inference by the study of various probabilistic models as well as to apply them in various fields of science, engineering and research.
- PSO 5-** Students will be able to understand various algebraic properties of functions to drive better conclusions.
- PSO 6-** There will be development of the students for better decision making, understanding of logics and rationality while dealing with the real life problems.
